Cannabis and Endocannabinoid System

Published On: January 19, 2021 | Pages: 004 - 006

Author(s): Somchai Amornyotin*

The endocannabinoid system is involved in various physiological pathways in the human body. A large number of endogenous cannabinoids have been acknowledged, and cannabinoid receptor type 1 (CB-1) and cannabinoid receptor type 2 (CB-2) have been categorized. The activation of endocannabinoid system could regulate the activity in several neural pathways. The complex fu ...
